Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 09/912,685	Applicant(s) EPSTEIN, MICHAEL A.	
	Examiner Tan V. Mai	Art Unit 2193	

– The MAILING DATE of this communication appears on the cover sheet with the correspondence address –
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Rejection grounds continue to be set forth in the previous Office action mailed 9/2/04.

2. Applicant's arguments filed on 11-8-04 have been fully considered but they are not persuasive.

Applicant, in his remarks, argues that: "[w]ith respect to the observation about the 'decorrelating' step, since it is applied to the **marking signal** that is used to generate the final output signal, the results of the step are in fact used. Similarly, the results of the 'linear feedback shift register' are also used" (emphasis added).

With respect to the argument, the examiner carefully reviews the specification, drawings and the claimed invention. The examiner analyzes amended claim 1 as follow: "[a] method..., comprising the steps of:

deriving from an **input signal** (input_D of Fig. 3) to a **flip-flop** (210) a **mark signal** (LFSR Mark signal)...;

decorrelating said marking signal to noise;

operating said **flip-flop** (210) in meta-stable state; and

generating a random bit from the **marking signal** (LFSR Mark signal) based on the occurrence of the meta-stable state".

It is clearly that the "decorrelating said marking signal to noise" step is redundant because the other step(s) do NOT use the result of "decorrelating" step. The

“decorrelating” feature should in a sub-step in “deriving” step. See Fig. 3 & page 9, second complete paragraph for detailing of the claimed invention. It is noted that the “decorrelating” feature is a novel feature of the invention.

3. Claims 1-33 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. The following is an examiner’s statement of reasons for allowance: the recorded references do NOT teach or suggest the novel “decorrelating ” feature as recited in independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
